

A Pilgrim Walk Along the Camino de Santiago

May 8 – May 19, 2023

Join us in walking one of the great pilgrim routes of Medieval Christianity, the Camino de Santiago. We will walk the final 111 kms of this historic route in the Spanish province of Galicia, from the town of Sarria, to the Cathedral of St. James.

Daily mileage is modest, 6-10 miles, suitable for a wide variety of walkers. Easing our journey, overnight bags will be transported between accommodations and emergency transportation will be available, if necessary.

May is a wonderful time to walk in northwest Spain, daily high temperatures historically are in the mid-60s with rain tapering off from the winter months. The number of pilgrims on the trail are still relatively low, while the long days (sunset c. 9:45 pm!) will provide plenty of time of reflection, exploration, and rest at the end of the day.

Trip departs and returns from Cincinnati.
